

Pisativari Kunta Tank in Pisatigudem Village

This tank is situated in Pisatigudem village in Chityal Mandal of Nalgonda District in Andhra Pradesh. The works planned in this tank were light jungle clearance, bund strengthening and revetment of the bund. All the three works were completed in Feb 2009. The work on this tank has helped the farmers get a second crop and an assured first crop. The tank also recharges the bore wells nearby which also benefits the farmers. In the course of the work the farmers felt the need for construction of a surplus weir in the tank. So they contributed additional funds and completed the work.
